

Hello Artists, Parents/Guardians!

Below you will find a grade specific supply request as well as an optional individual art supply list if you would like your child to use their personal supplies in art class for the upcoming school year.

The grade specific supply item will go directly to the art department and used for communal supplies. These are already added on to the school supply kits that can be ordered but can also be purchased separately and brought in as well.

These basic art supplies will see your child through an engaging and growth-filled year learning about art history, past and practicing artists, art styles, drawing and painting techniques, the elements of art and the principles of design! Thank you for your support of the complete, history-rich and diverse education that the Fine Arts provides!
